

Bayview Caltrain Location Study Update

San Francisco
County Transportation
Authority

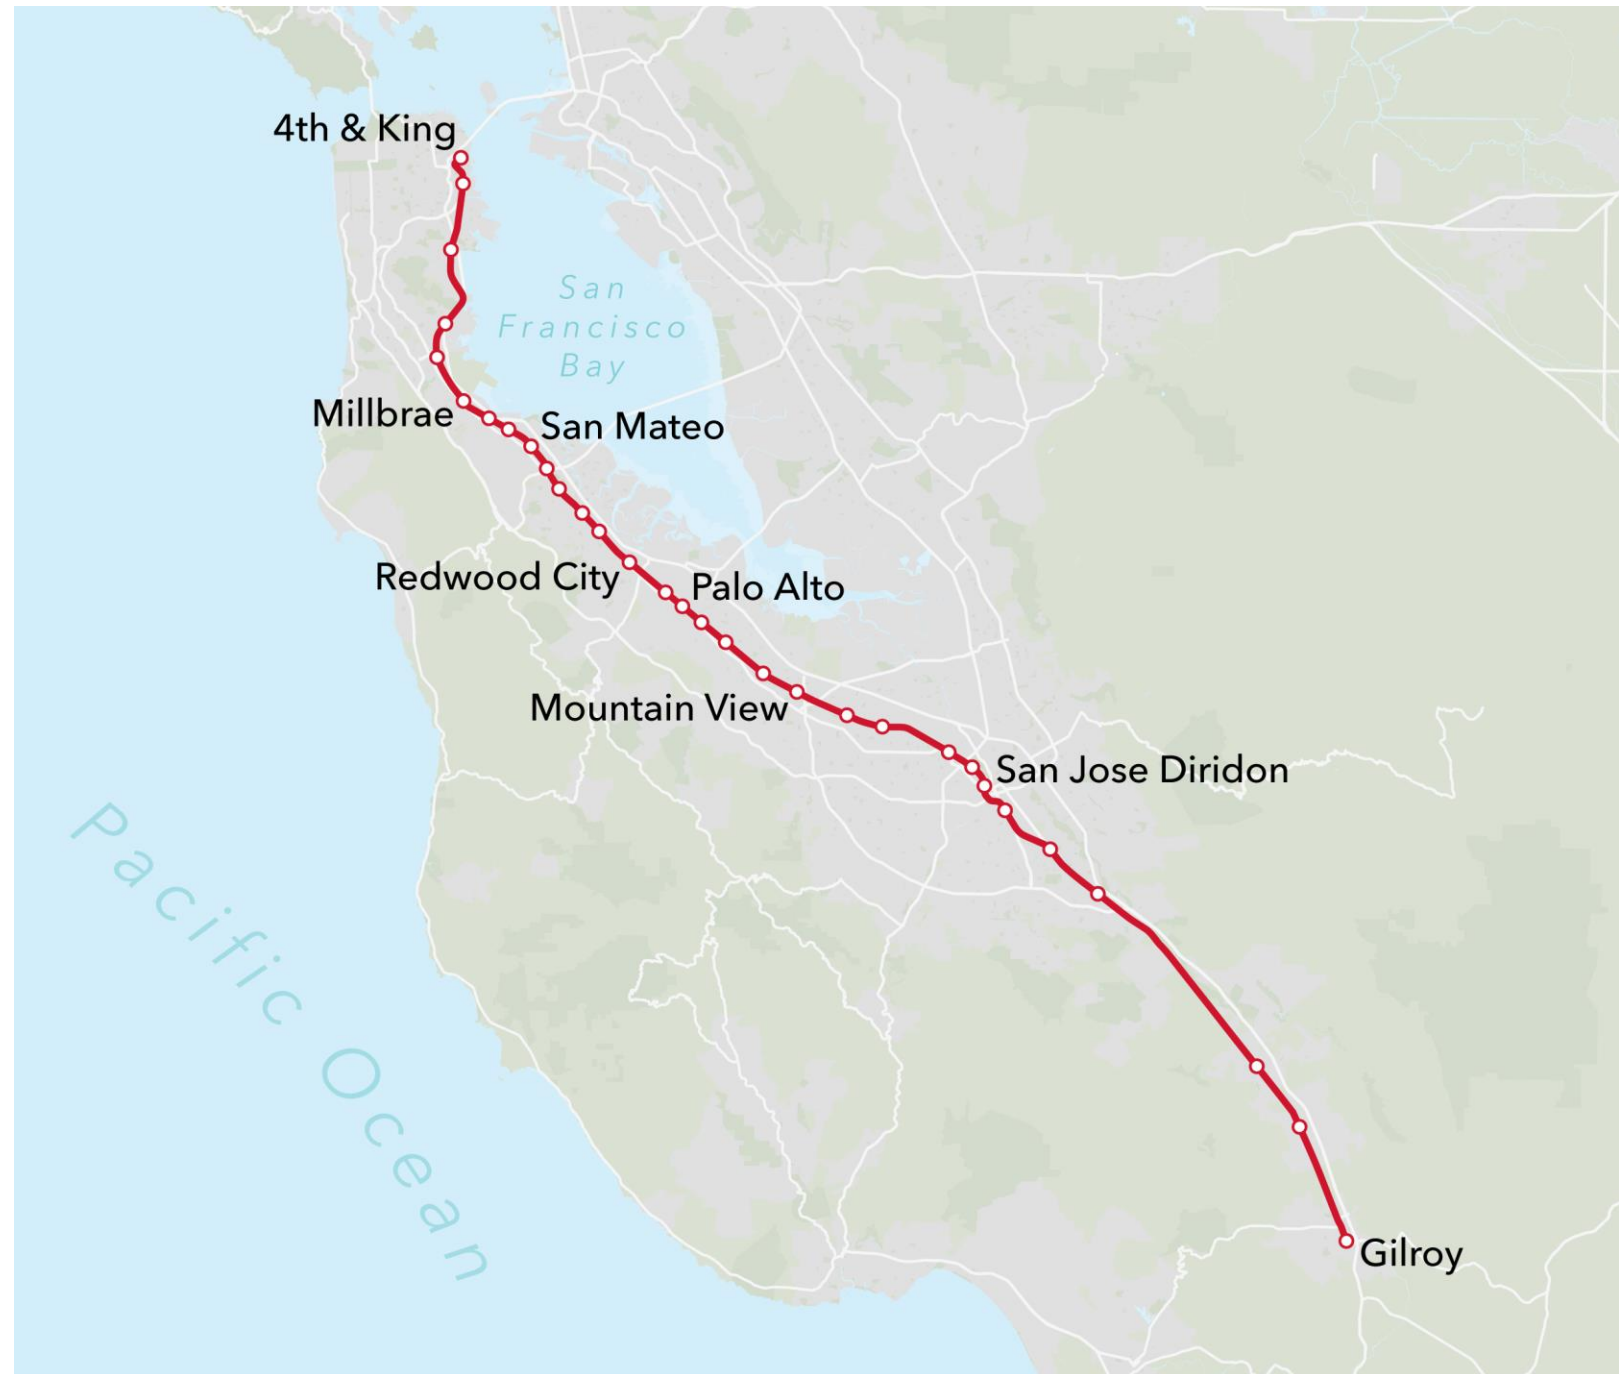

Hunters Point Shipyard CAC
September 18 2023

Overview

- Background and Context
- What Will We Do in This Phase?
- Evaluation Framework
- Early Design Input
- Next Steps

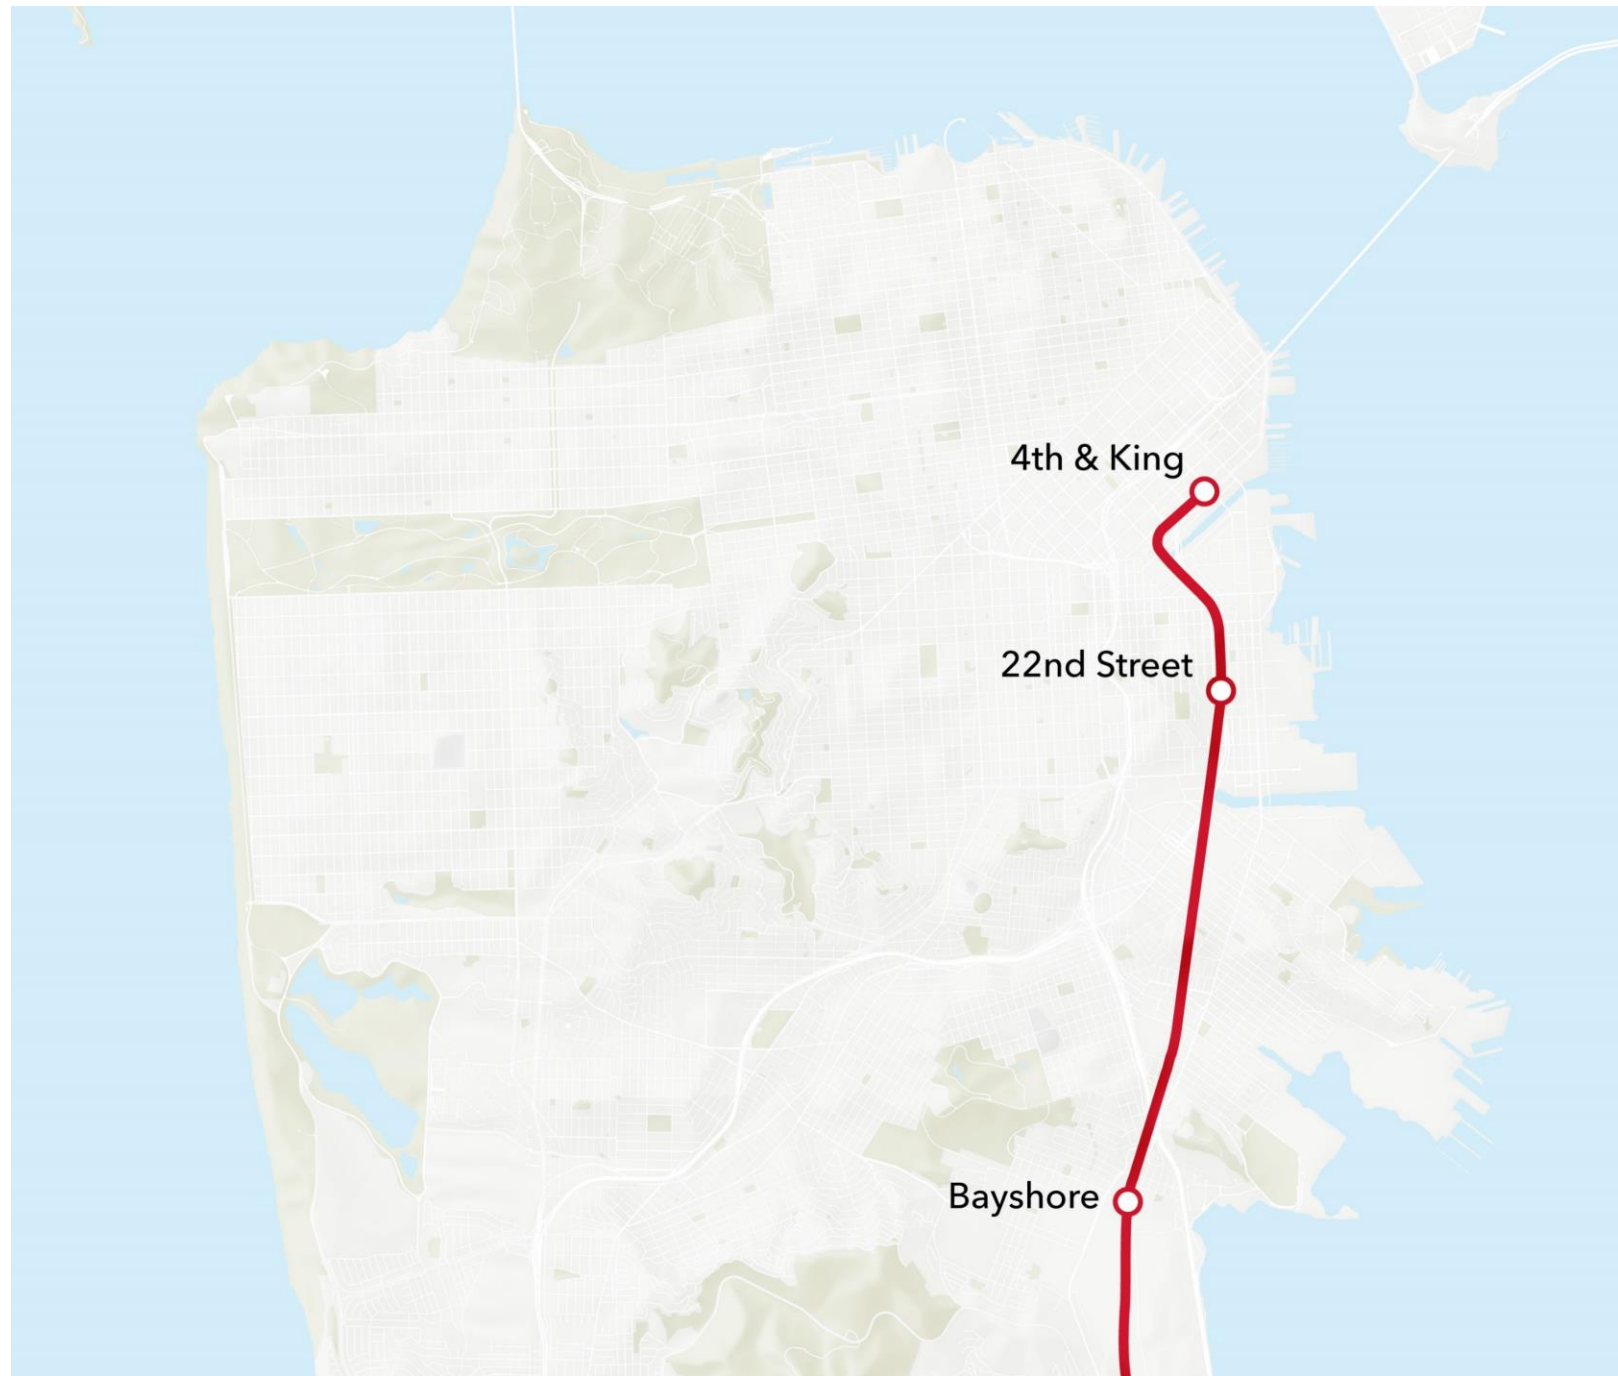

Background & Context

Caltrain today

Background & Context

Caltrain in San Francisco

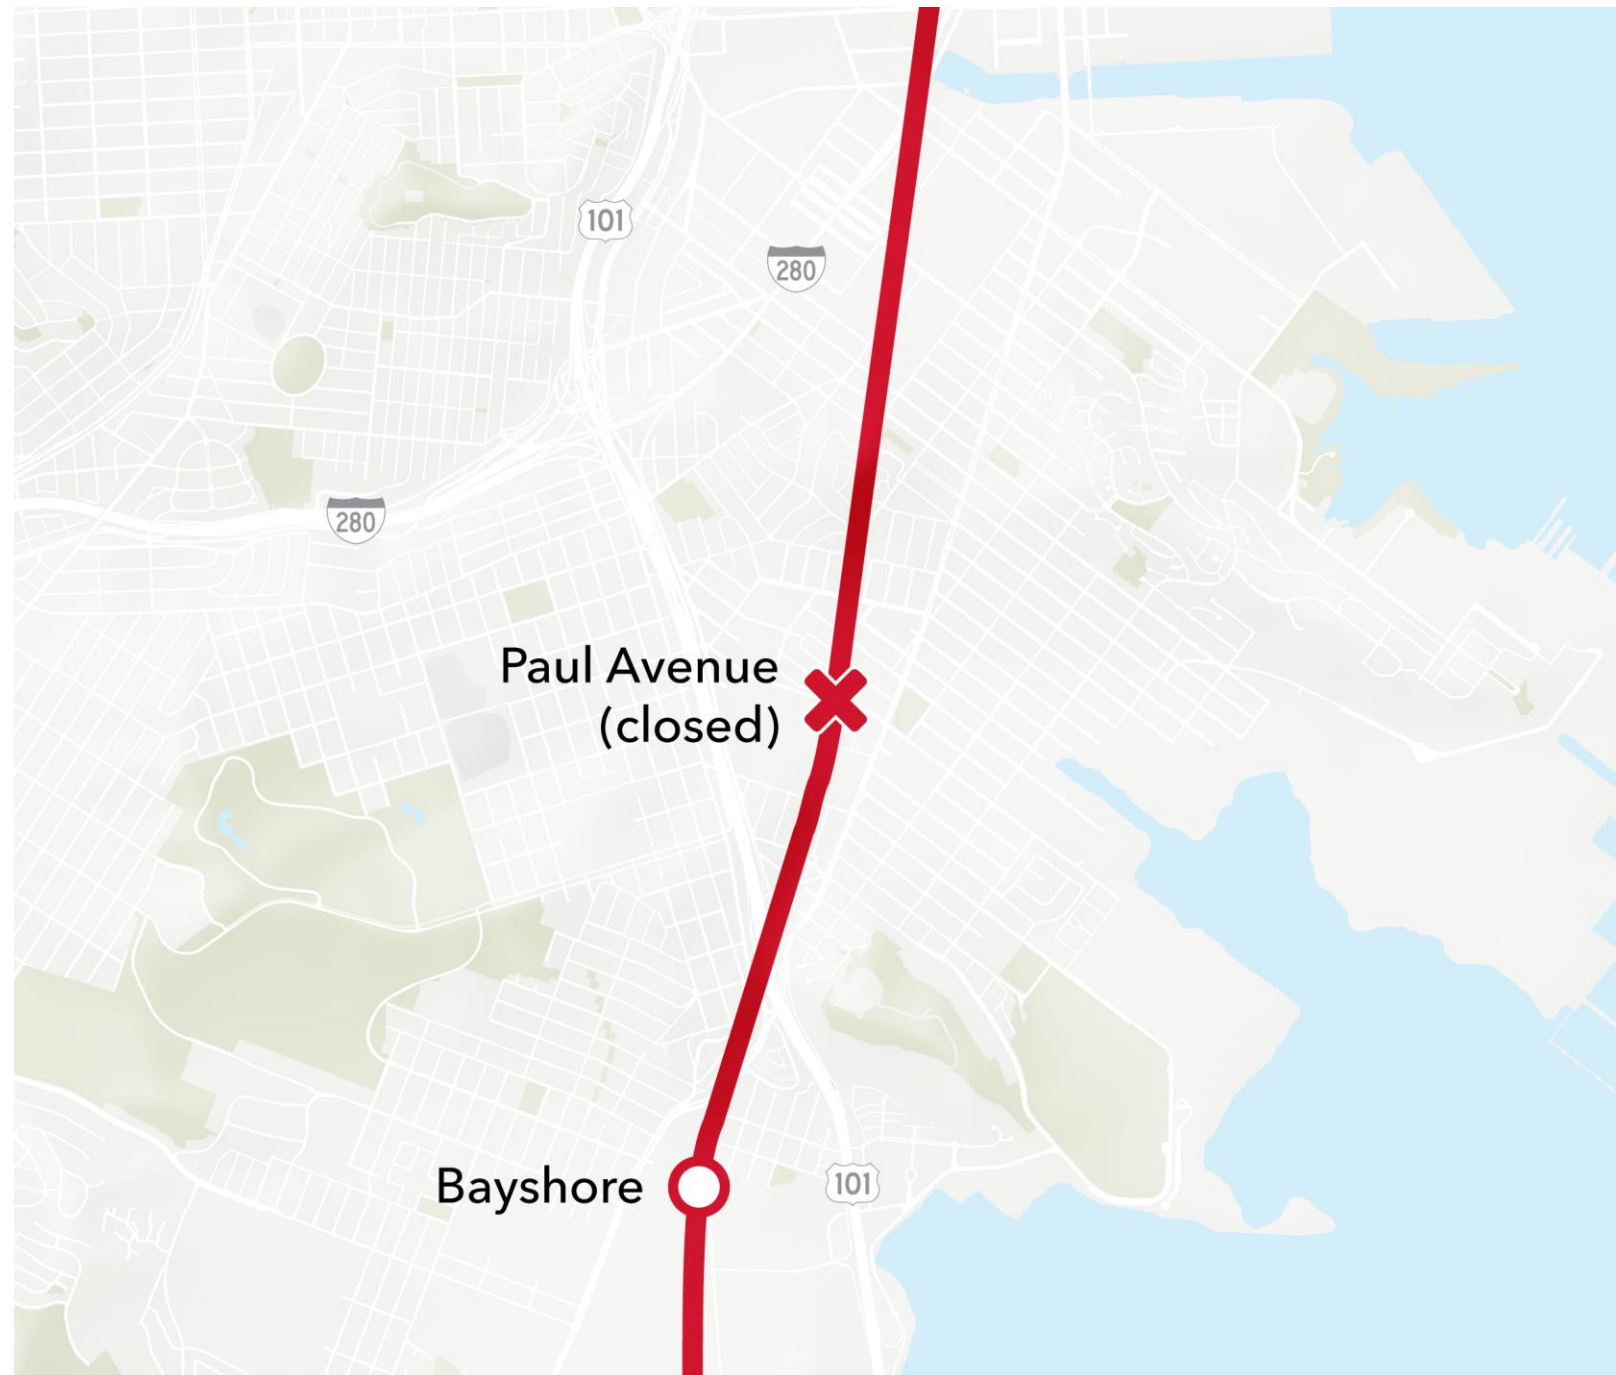

Background & Context

The Bayview has not had direct access to Caltrain since 2005

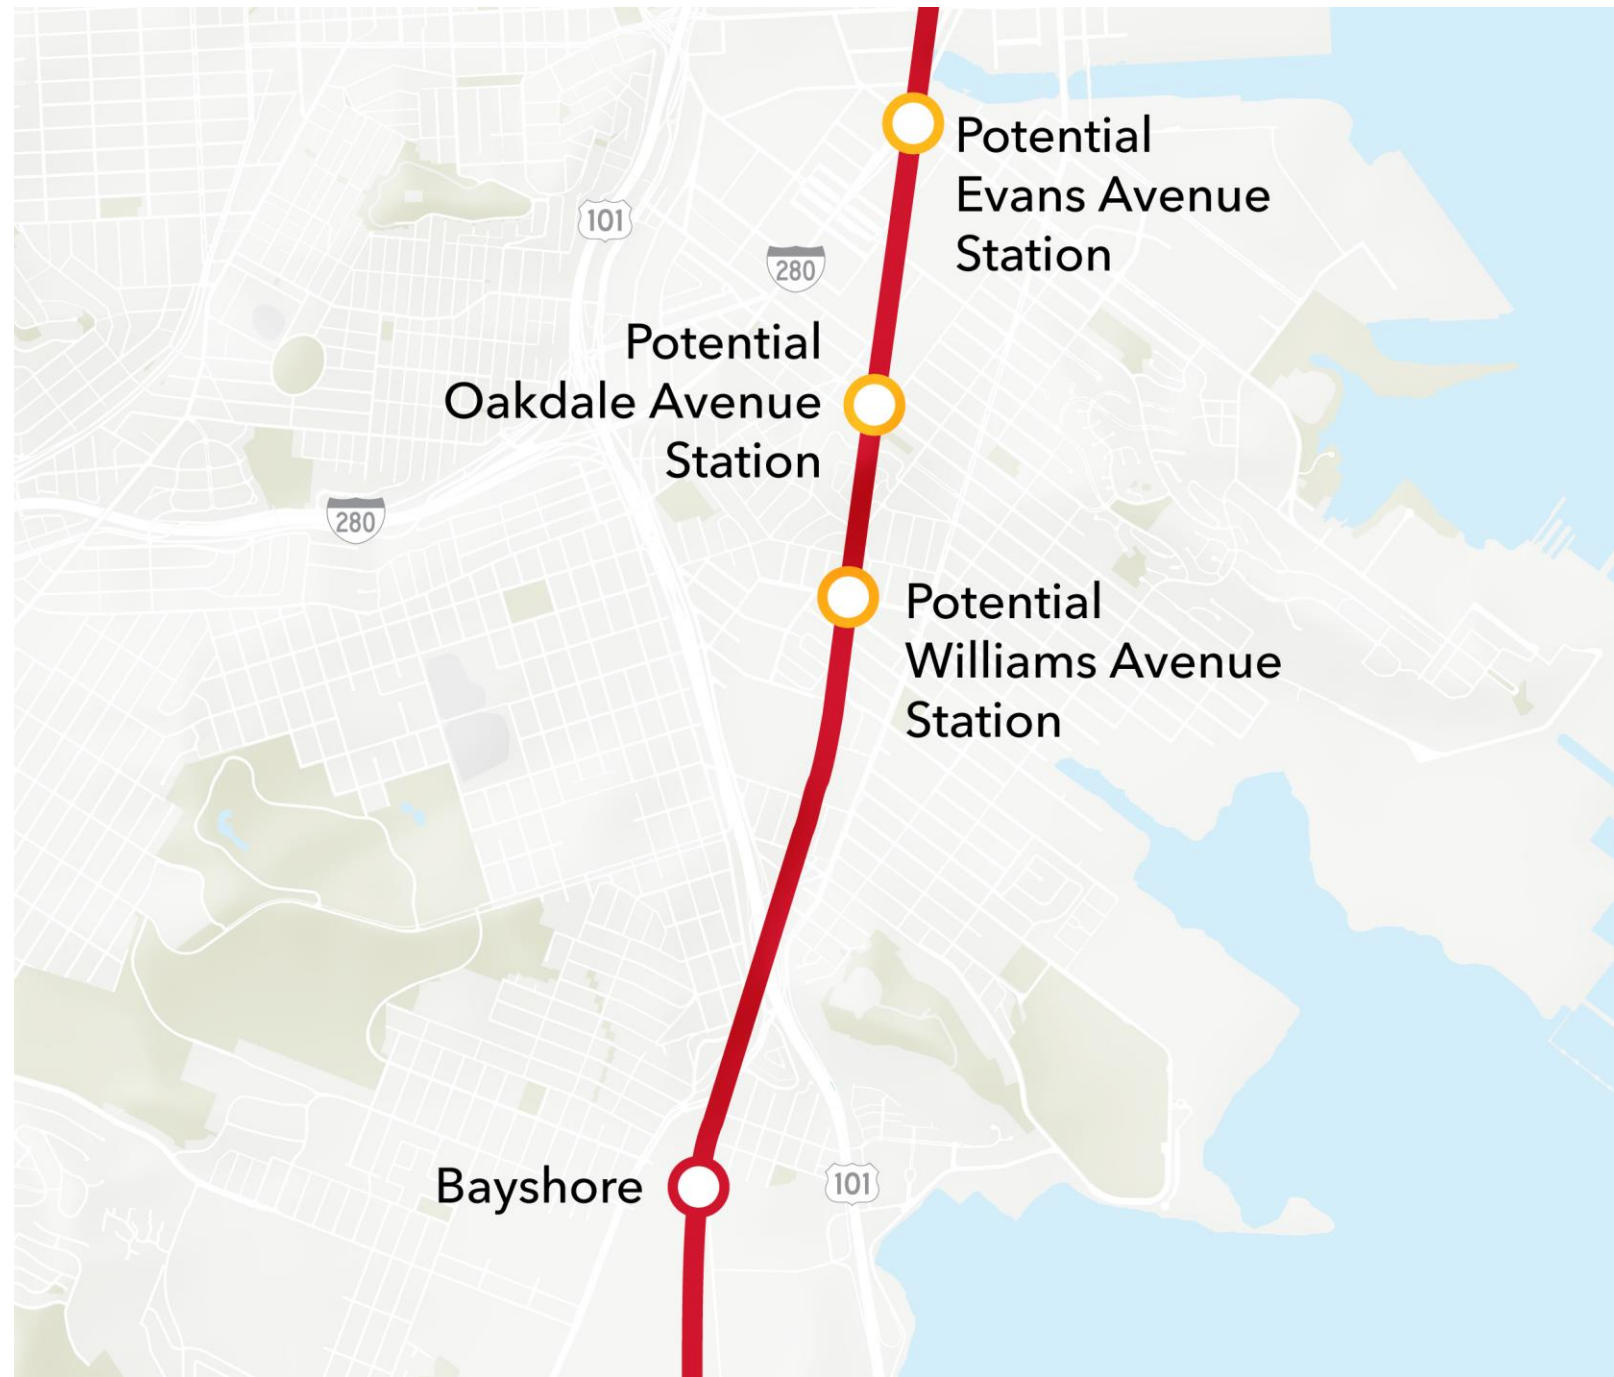

San Francisco
County Transportation
Authority

Background & Context

Southeast Rail Station Study Options

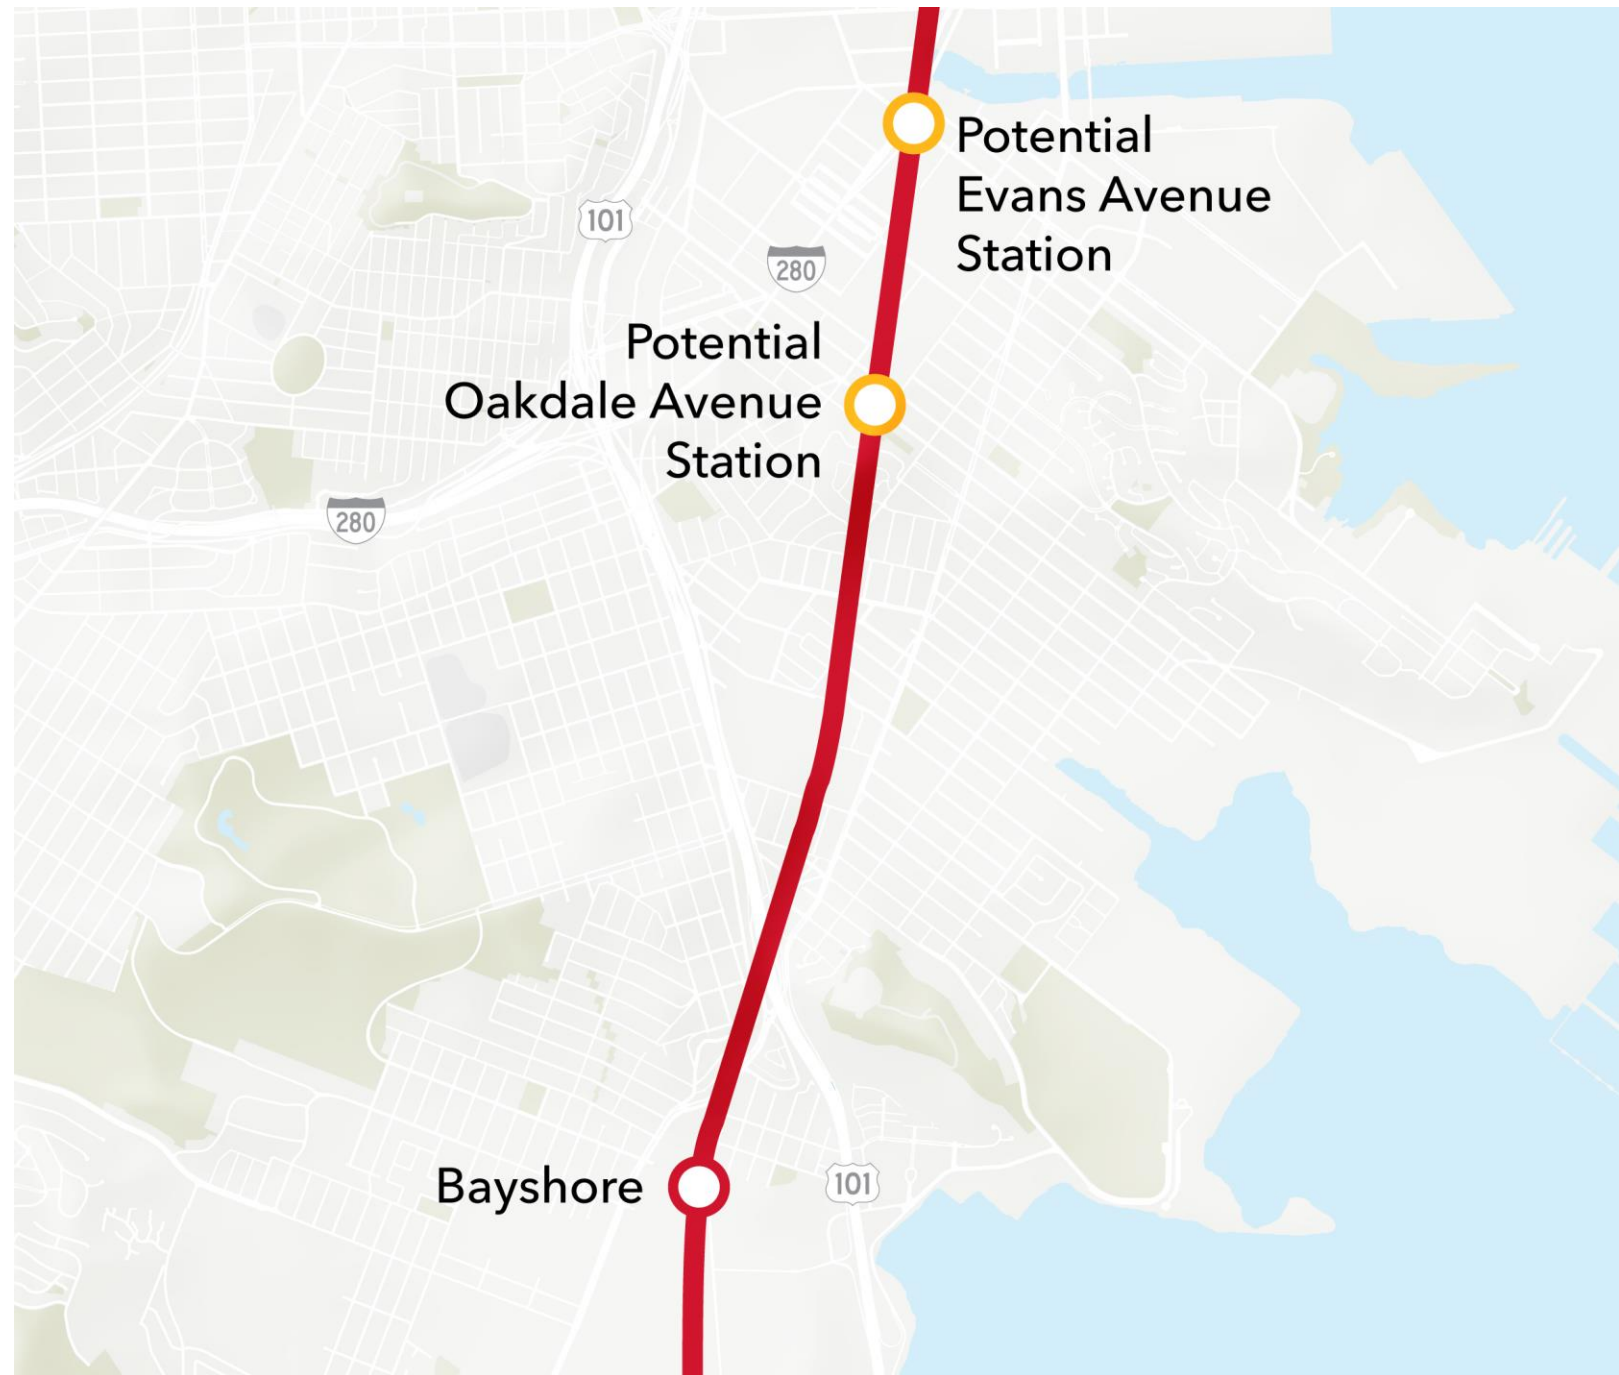

Background & Context

Southeast Rail Station Study Conclusions

San Francisco
County Transportation
Authority

This Study Will:

- Recommend a single station location to advance towards implementation using focused, prioritized criteria
- Develop concept designs for each potential location to help inform these criteria
- Refine cost estimates to help understand funding and deliverability
- Lay out a roadmap for design, environmental clearance, and implementation

Evaluation Framework

Ridership

Climate Resiliency & Environment

Access and Community Integration

Deliverability

Questions & Discussion

Are the evaluation criteria right? Are any missing?

- Are some criteria more important than others?

How can we best reflect the values of community members within these criteria?

- What does accessibility mean to you?
- What does community integration look like to you?
- How would you like to travel to and from the station?
- Other factors?

Potential Design Elements

1 Dedicated Bike Lane

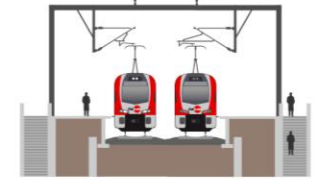

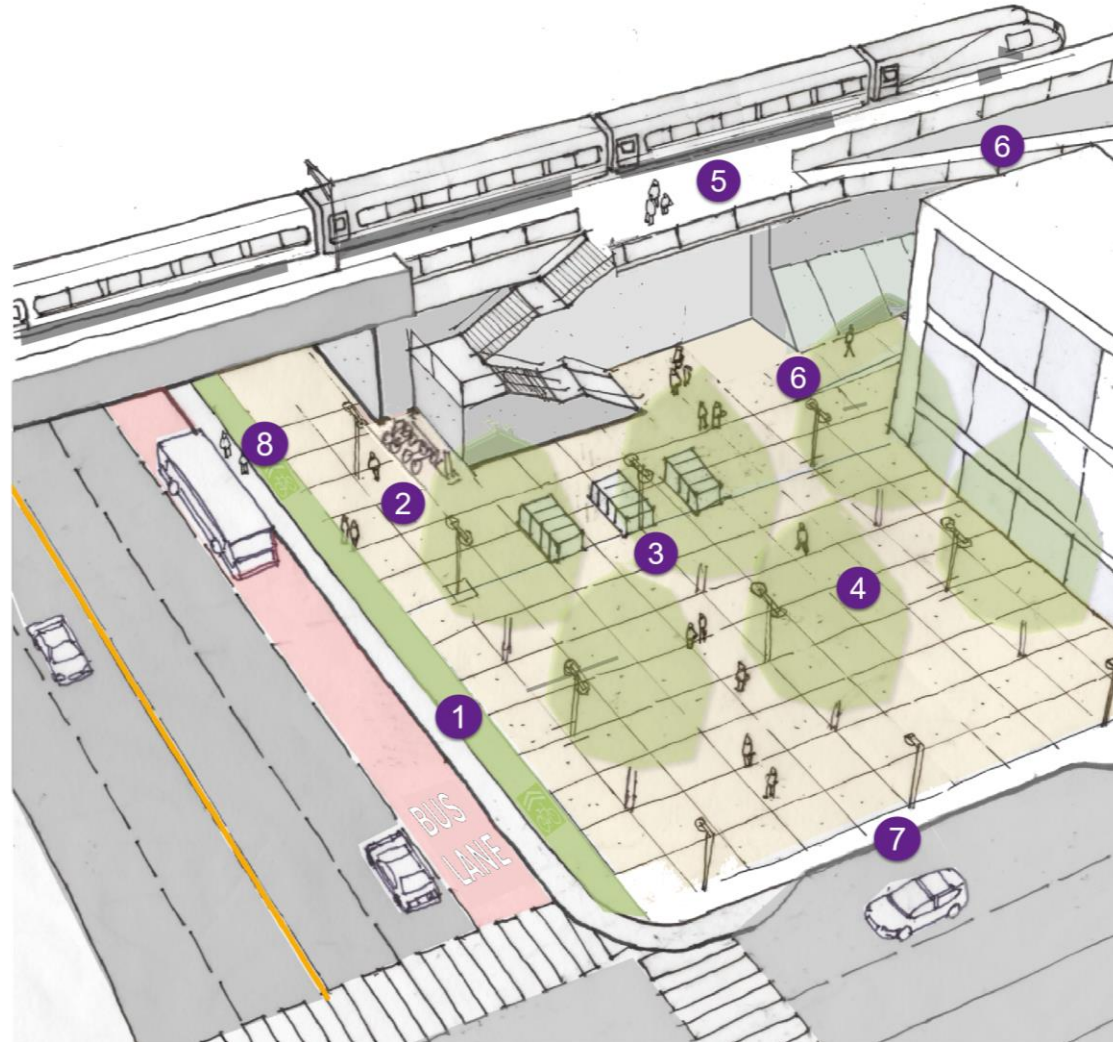

2 Bike Share

3 Bike Lockers

4 Landscaped Plaza

5 Elevated Side Platform

6 Ramp to Platform

7 Pick-up / Drop-off

8 Bus Stop

Questions & Discussion

Do the design elements resonate with you?

Are there elements missing that you'd like included?

Next Steps

- Open House: October 14, 2023
- Incorporate feedback into criteria
- Advance designs, cost estimates, ridership, etc.
- Preliminary recommendation & additional outreach: Late 2023/Early 2024
- Adoption by SFCTA Board: Early 2024

Thank you.
