

Bayview Street Safety and Truck Relief Study

Community Presentation

San Francisco
County Transportation
Authority

July 2026

Study Background

San Francisco
County Transportation
Authority

Bayview residents have been vocal about **safety, noise, and pollution issues** related to truck traffic.

This study will:

- Understand where trucks are driving and parking
- Find places where trucks create conflicts
- Identify the best ways to reduce conflicts
- Share recommendations with funders and decision-makers

What We've Heard

San Francisco
County Transportation
Authority

We've heard from other studies that:

- Most truck traffic is on a few major roads. However, trucks are also using residential streets to cross the neighborhood.
- Truck traffic creates a lot of noise and air pollution.
- Truck routes and idling rules aren't being enforced.
- Future residential development is going to make these problems worse.

What We Found

This map shows where trucks are generally driving and parking in the neighborhood.

Help us fill in the gaps:

- Does this match your personal experience?
- Where do trucks impact you the most when you are walking, biking, taking transit, or driving?
- What locations should we investigate further?

Strategies to Address Truck Conflicts

San Francisco
County Transportation
Authority

Improved signage for
truck routes and parking
locations

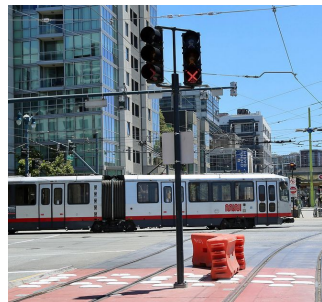

Designate preferred truck
routes

Designate preferred truck
parking locations

Improvements to prioritize
T-Third Muni Metro service

Street improvements for pedestrian safety

Longer pedestrian
crossing times

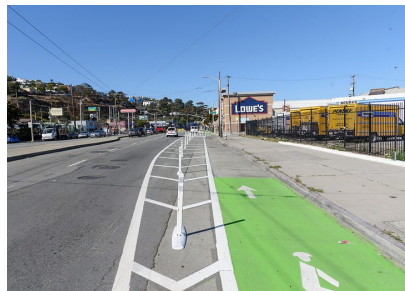

Curb bulbouts

Pedestrian refuge
islands

Protected bike lanes on truck routes

Strategies to Address Truck Conflicts

San Francisco
County Transportation
Authority

Encourage truck drivers to complete deliveries during off-hours

Incentivize electric trucks

Designate a transit-and-freight only lane on streets used by both Muni and trucks

Which strategies do you support? Which strategies do you not support?

Any other ideas?

Project Timeline

**San Francisco
County Transportation
Authority**

Community Outreach

**Develop strategies to
address freight conflicts**

Community Outreach

Gather feedback on draft
strategies

Study Completion

Share your feedback!

San Francisco
County Transportation
Authority

Take our outreach survey! The survey will be live until **August 21**
